

REMARKS

This Supplemental Preliminary Amendment is being submitted in light of the telephonic interview that took place on April 15, 2008 between the Examiner and the undersigned attorney for Applicant, and their subsequent email correspondence on April 23, 2008. Claims 1, 4, 6-10, 13 and 15-19 are presented for examination, of which Claims 1, 10 and 19 are in independent form. Claims 1, 10 and 19 have been amended to define still more clearly what Applicant regards as his invention. Favorable reconsideration is requested.

During the telephonic interview, Applicant's undersigned attorney explained in detail the nature of the present invention and its differences from the cited prior art, Lozano. In particular, Applicant's attorney argued that Lozano does not teach or suggest at least the recording unit, selection unit and execution unit of the claims. The Examiner suggested amending the claims to provide clarification with respect to the recording unit, and inserting the term "automatically" be before --select the version information--. This constitutes the Statement of Substance of the Interview.

Following the interview, Applicant's undersigned attorney amended the claims as suggested by the Examiner (and as shown in the above claims listing) and emailed the claims to the Examiner for his review. The Examiner responded that the proposed amendments were acceptable and requested that the present Supplemental Preliminary Amendment be filed for further consideration on the merits.

In view of the foregoing amendments and remarks, Applicant respectfully requests favorable consideration on the merits and early passage to issue of the present invention.

Applicant's undersigned attorney may be reached in our New York office by telephone at (212) 218-2100. All correspondence should continue to be directed to our below listed address.

Respectfully submitted,

/Jennifer A. Reda/
